

Blistering machine ROMACO DPN 760
Art-Nr.: BLI033.0.2

Technical date			
Year of manufacture		2002	
Max. film width		165	mm
Max. feed length		140	mm
useful area		156 x 138	mm
Max. depth of draw		24	mm
Max. through flow fiim		5	m/min
Max. punch takt		40	T/min
Type of operation		swiched digital	
Deformation:			
With compressed air if necessary supported by pre-stretching stamp; with ALU shaping with drawing stamp			
max. roll diameter of the bottom film		600	mm
max. roll diameter of the cover film		250	mm
Standard Voltage		3 x 400 V, 50 Hz with neutral	
Connection values depending on the machine		8,5 -15	KW
equipment:			
Air pressure		min. 6 bar, max.8 bar	
Air consumption		ca.200	NI/min
External cooling		10 l/min, max. t 15 Grad, max 3 bar	
Machine dimensions without feeding		3,00 x 1,00 x 1,70	m
Weight		approx. 1100	kg
Product feeding		manual / automatic
