

Fluid bed drier AEROMATIC S-2
Code Nr.: COA008.4.9

2502

Technical Data		
Producer	Aeromatic	
Type	AEROMATIC S-2	
Batch size	5 -25	kg
Air distributor plate area	0.06	m ²
Fan speed	2.900	U/min
Nominal process airflow	370	m ³ /hr
System pressure shock capability	10	bar
Atomising pressure gauge	0-5	bar

Description:

Fluid bed drier AEROMATIC S-2 with spray dispersion attachment.
 Polished finish 316 stainless steel
 Full feature stainless steel control panel incorporating: air flow volume LED display;
 Magnehelic differential pressure gauges for bottom plate and filter resistance;
 exhaust air temp LED display; chart recorder;
 inlet air controller; product temp LED display;
 filter cleaning interval timer; drying time pre set;
 2 position switches for spraying/test, on/off, filter cleaning on/off.
 Operating status lamps. Note: This machine requires an air handling unit.
